

# SOMAPLUS SCHOOL MANAGEMENT SYSTEM

## SUBJECT: DATA MIGRATION TO DIGITAL PLATFORM

Dear Parents,

**Somaplus** has taken this opportunity to inform you that the school has taken measures to migrate to a more digital school management platform. The platform allows parents the following:

**FEE PAYMENT:** parents can pay their individual student's fee using the app as the school's payment methods have been integrated in the system i.e Mpesa paybill, bank accounts details etc..

**FEE STATEMENT:** parents can view their fee statements on the app as well as their receipts which will be automatically generated immediately fees are paid.

**EXAMS:** Parents will be able to view their individual student's results for all the exams (opening term exams, midterm exams and end term exams) done in the school immediately they're posted by the teachers on the app.

**QUIZ AND QUIZ RESULTS;** these will be posted on the app by teachers so that the parents can download the students homework, assist then later on upload for marking. Then later on view the results posted by teachers in "quiz results" on the app.

**DIARIES:** This is a chat platform on the app where both parents and teachers can communicate directly regarding the students well fare and the daily occurrences within the school if need be.

**SHOP:** Parents can buy all the items (uniforms, P.E kits, books, etc.) being sold in the school from the app by simply clicking on the preferred item displayed on the shopping area (price is indicated).

To gain access, parents are requested to go to play store, download **SOMAPLUS PARENT** [https://play.google.com/store/apps/details?id=com.somaplus.soma\\_parent\\_app](https://play.google.com/store/apps/details?id=com.somaplus.soma_parent_app) and use their phone numbers as both the user name and password.

We kindly request parents/guardians to provide their phone numbers (**Active**) to the school's management to enable registration on the app.

For any assistance kindly contact the school's management. Thank you.
